CONTROL OF POISONS

Prohibition of sale of poison without licence

32 Subject to the provisions of this Part, it shall be unlawful for a person to offer for sale, or sell, any poison unless he holds a licence for the purpose under section 34.

PHARMACY AND POISONS ACT 1979

Poisons

33 Any substance specified in the Fifth Schedule shall be a poison for the purposes of this Act.

Licences to sell poisons

34 (1) Any person who makes application to the Minister in the prescribed form and pays the appropriate fee provided for under the Government Fees Act 1965 [*title 15 item 18*] may be granted a licence by the Minister under this section, and a person holding such a licence is in this Act referred to as a “licensed seller of poisons”.

(2) The Minister may refuse to grant a licence under this section to any person who for any reason relating to that person or his premises and appearing to the Minister to be sufficient is not fit to hold such a licence.

(3) A licence under this section shall not entitle the holder to sell any poison for a use that is a medicinal use, and it shall accordingly be an offence against this Act for a licensed seller of poisons to sell a poison if he knows or has reason to believe that the poison will be applied to a use that is a medicinal use.

(4) The licence of a licensed seller of poisons shall lapse if he does not on or before the 31st day of December pay to the Minister the appropriate annual fee provided for under the Government Fees Act 1965 [*title 15 item 18*].

Labelling of poisons

40 Subject to any provision made by any regulation, no person shall sell any poison to any other person unless the word "poison" and the name and business address of the seller and the date of the sale are displayed in clear and legible writing on the surface of the receptacle in which the poison is contained.

PHARMACY AND POISONS ACT 1979

(2) In the case of a preparation listed in the official British Pharmacopoeia or the British Pharmaceutical Codex or any supplement thereto, it shall be a sufficient compliance with subsection (1) if that preparation—

- (a) when sold either with or without dilution or admixture, is described by its name or synonym or abbreviated name used in the Pharmacopoeia, Codex or supplement with the addition of the letters B.P. or B.P.C., as the case may be; and

- (a) the Minister shall not serve a notice on the trader in consequence of the notification before the expiration of the period of 28 days beginning with the day aforesaid; and
- (b) if during that period the trader makes to the Minister such written representations as are mentioned in paragraph 8(c) the Minister shall not serve a notice on the trader in consequence of the notification before the Minister has considered the report of a person appointed in pursuance of paragraph 10 in consequence of the representations.

10 Where, in consequence of the service on the trader of a notification in pursuance of paragraph 8, the trader informs the Minister as mentioned in paragraph 8(c) within the period so mentioned and makes to the Minister within that period or the fourteen days

beginning with the end of that period such written representations as are so mentioned, the Minister shall—

- (a) appoint any person to consider the written representations; and
- (b) if the trader informed the Minister in pursuance of paragraph 8(c) that the representations would be both written and oral, inform the trader of the place and time (which must not be before the expiration of the fourteen days and of seven days beginning with the day when the information is given to the trader) at which the oral representations may be made to the person appointed;

and the trader or his representative may at that place and time make to the person appointed oral representations for the purpose of satisfying the Minister that the drug or drug product in question is safe and may call and examine witnesses in connection with the representations.

11 The person appointed in pursuance of paragraph 10 to consider written representations with respect to any drug or drug product shall, after considering the representations, any oral representations made in pursuance of that paragraph with respect to the drug or drug product and any statements made by witnesses in connection with the oral representations, make a report (including recommendations) to the Minister about the representations and the proposed notice.

12 If at any time after the Minister has served a notification on the trader in pursuance of paragraph 8 the Minister decides not to serve a notice on him in consequence of the notification, the Minister shall inform him of the decision; and after the Minister informs him of the decision the notification and anything done in consequence of it in pursuance of the preceding paragraphs shall be disregarded for the purposes of those paragraphs.

13 Where a notification is served on the trader in respect of any drug or drug product in pursuance of paragraph 8, a notice served on him in consequence of the notification may relate to some only of those the drug or drug product.

Special Procedure

14 Paragraphs 8 to 13 do not apply to a notice which contains a statement that the Minister considers that the risk of danger connected with the drug or drug product to which the notice relates is such that the notice must come into force without delay; and references to a notice in paragraphs 15 to 18 are to a notice containing such a statement.

15 A notice in respect of any drug or drug product must—

- (a) state that, for the reasons set out in the notice, the Minister considers that the drug or drug product is not safe; and
- (b) state that the trader may, at such time as the trader thinks fit, make representations in writing to the Minister for the purpose of satisfying him that the drug or drug product is safe.

16 If representations in writing about a notice are made by the trader to the Minister, the Minister shall consider the representations and either revoke the notice and inform the trader that he has revoked it or—

- (a) appoint a person to consider the representations; and
- (b) serve on the trader a notification stating that he may make to the person appointed oral representations for the purpose mentioned in paragraph 15 and specifying the place and time (which, except with the agreement of the trader, must not be before the date of service of the notification) at which the oral representations may be made,

and the trader or his representative may at that place and time make to the person appointed oral representations and may call and examine witnesses in connection with the representations.

17 The person appointed in pursuance of paragraph 16 to consider written representations with respect to any drug or drug product shall, after considering the representations, any oral representations made in pursuance of that paragraph with respect to the goods and any statements made by witnesses in connection with the oral representations, make a report including recommendations to the Minister about the representations and the notice in question.

18 Where the Minister has appointed a person in pursuance of paragraph 16 to consider any representations relating to a notice then, without prejudice to the operation of paragraphs 19 and 20, paragraphs 16 and 17 shall not apply to any subsequent representations in writing about the notice.

Other Representations

19 If at any time the trader on whom a notice has been served makes representations in writing to the Minister for the purpose of satisfying him that the drug or drug product to which the notice relates is safe and, by virtue of paragraph 18, paragraph 16 does not apply to the representations, the Minister shall consider the representations and serve on the trader, before the expiration of one month beginning with the day when the Minister receives the representations, a notification stating—

- (a) that the Minister will revoke the notice or vary it or declines to do so; or
- (b) that the Minister has appointed a person to consider the representations and that the trader may make to the person appointed, at a place specified in the notification and a time so specified (which, except with the agreement of the trader, must not be before the expiration of the period of twenty-one days beginning with the date of service of the notification), oral representations for the purpose,

and the trader or his representative may at that place and time make to the person appointed oral representations and may call and examine witnesses in connection with the representations.

20 The person appointed in pursuance of paragraph 19 to consider written representations with respect to any drug or drug product shall, after considering the representations, any oral representations made in pursuance of that paragraph with respect to the drug or drug product and any statements made by witnesses in connection with the oral representations, make a report including recommendations to the Minister about the representations and the notice in question.

Miscellaneous

21 The Minister may revoke or vary a notice by serving on the trader a notification stating that the notice is revoked or, as the case may be, is varied as specified in the notification; but the Minister shall not have power to vary a notice so as to make the effect of the notice more restrictive for the trader.

22 The Minister shall consider any report made to him in pursuance of paragraph 17 or 20 and, after considering the report, inform the trader of his decision with respect to the notice in question.

PART III

NOTICES TO WARN

23 If the Minister proposes to serve on a person a notice to warn in respect of any drug or drug product, the Minister shall, before he serves the notice, serve on the person a notification in writing—

- (a) containing a draft of the notice and stating that the Minister proposes to serve on the person such a notice in the form of the draft;
- (b) stating that, for the reasons set out in the notification, the Minister considers that the drug or drug product specified in the draft is not safe; and
- (c) stating that the person may make representations, in writing or both in writing and orally, for the purpose of satisfying the Minister that the drug or drug product is safe but that if the person intends to make such representations he must, before the expiration of the period of fourteen days beginning with the day when the notification is served on him, inform the Minister of his intentions indicating whether the representations are to be in writing only or both in writing and oral.

24 Paragraphs 9 to 13 and 21 shall with the necessary modifications have effect in relation to a notice to warn as they have effect in relation to a prohibition notice but as if—

- (a) the reference to paragraph 14 in paragraph 9 were omitted;
- (b) for the references to paragraph 8 in paragraphs 9, 10, 12 and 13 there were substituted references to paragraph 23;

PHARMACY AND POISONS ACT 1979

- (c) in paragraph 13 for the words from “relate” onwards there were substituted the words “be less onerous than the draft of the notice contained in the notification”; and
- (d) in paragraph 21 the words “or vary” and the words from “or, as” onwards were omitted.
